Acivico GROUP

Fire Risk Assessments

Protecting Your People & Property

At Acivico, we understand that fire safety is paramount

We offer comprehensive Fire Risk Assessment services, using industry best practice and technology to safeguard your buildings, occupants, and business continuity. Our experienced fire risk assessors use a leading fire safety software platform providing tailored solutions that meet your specific needs and comply with all relevant legislation.

Professional Fire Risk Assessments helping you stay compliant and in control

Acivico is committed to providing quality Fire Risk Assessment services, delivered with professionalism, integrity and a focus on client satisfaction. We work closely with our clients to understand their specific needs and provide solutions that meet their requirements. Here's how we stand out:

Experienced and Qualified Assessors: Our team comprises highly trained and accredited (up to tier 3 IFSM certified) fire safety professionals with extensive knowledge of building regulations and fire safety standards in complex buildings.

Expert Validation: All of our FRAs are validated by a registered and qualified IFSM validator

Comprehensive Assessment Processes: We conduct thorough assessments, identifying potential fire hazards, evaluating existing fire safety measures, and providing clear, actionable recommendations to PAS 79 standards

Bespoke Solutions: We understand that every building is unique. Our assessments are customised to address the specific risks and challenges of your premises, regardless of sector.

Compliance Assurance: We ensure your fire safety measures meet all legal requirements, including the Regulatory Reform (Fire Safety) Order 2005 and Building Safety Act (2022).

Proactive Risk Management: We help our clients develop and implement effective fire safety management plans to minimise the risk of fire and ensure a swift and safe response in the event of an emergency.

Streamlined Data Collection: Our software platform enables our assessors to efficiently collect data on-site, ensuring accuracy and consistency.

Centralised Data Management: Securely store and manage all fire safety data in one central UK-based location, accessible to authorised personnel.

Improved Compliance Tracking: Easily track the implementation of recommended actions and demonstrate compliance with fire safety regulations.

Why choose Acivico?

Acivico Group combines technical expertise with a proactive approach, ensuring a safe and compliant environment for your organisation. Our experienced professionals deliver clear, defensible Fire Risk Assessments tailored to your building and operational needs, helping you prioritise actions effectively and demonstrate control under scrutiny.
